FULL-TIME INSTRUCTIONAL FACULTY DATA: NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION, ACADEMIC YEARS 1975-76 THROUGH 1980-81

December, 1981

Full-Time Instructional Faculty Data:
Nebraska Institutions of Postsecondary Education,
Academic Years 1975-76 Through 1980-81

A Six Year Summary

The number of full-time faculty reported by Nebraska institutions of postsecondary education increased by 57 or 1.64% between academic years 1975-76 and 1980-81 (from 3,415 to 3,471). Average nine-month salaries increased $5,830 or 40% (from $14,649 to $20,479). The percentage change in the number of full-time faculty and average nine-month salaries for the Nebraska postsecondary education sectors respectively are: University of Nebraska -6% and +44%; Nebraska State College, +6% and +44%; Nebraska Technical Community Colleges, +19% and +36%; Nebraska Independent Colleges and Universities, +5% and +40%.

The number of full-time faculty with the academic rank of professor increased by 56 or about 1.6% between 1975-76 and 1980-81, and average nine-month salaries for professors increased by $7,826, or 39% (from $20,050 to $27,876). Average nine-month salaries for men and women with the rank of professor at each of the postsecondary education sectors increased respectively: University, 39% and 42%; State Colleges, 44% and 45%, Independents, 39% and 47%. The technical community colleges reported no faculty at this rank.

Associate professors decreased from 798 to 794, a decrease of 4 between 1975-76 and 1980-81. Average nine-month salaries increased 38% for associate professors or $6,072 from the $15,941 average nine-month salary for associate professors in 1975-76. The University of Nebraska reported 6 more associate professors in 1980-81 over the number reported in 1975-76 and nine-month average salaries for men in this rank increased 37% compared to an increase of 40% for women. The four state colleges reported fewer associate professors in 1980-81 than in 1975-76, a reduction of 25 or 20.31%. Women in the rank of associate professor at the state colleges had higher average nine-month salaries than men in 1975-76 and again in 1980-81 and the percentage increase for women was more than for men. The independent colleges and universities reported 15 more associate professors in 1980-81, 5% less than in 1975-76, and the increase in the average nine-month salary for persons of this rank increased $5,551 or 37%, increasing from $14,918 in 1975-76 to $20,469 in 1980-81.

Assistant professors declined in number (79), but on the average received a nine-month salary in 1980-81 that was 37% or $4,825, more than the $13,085 reported in 1975-76. The university reported 67 fewer assistant professors while the state colleges reported an additional 8 at this rank, and the independents 20 fewer. Women holding the rank of assistant professor averaged nine-month salaries which were less than for men in 1975-76 and again in 1980-81, and the percentage increase in average nine-month salaries for women was 5% less than it was for men.

Between 1975-76 and 1980-81 the number of full-time faculty with tenure increased by 7, but the percent of tenured faculty decreased by 4%. The State Colleges increased from 52% tenured to 71% tenured while the University of Nebraska and the Independent Colleges and Universities decreased slightly.

PREFACE

The information contained in this report was reported by the Nebraska institutions of postsecondary education on the Higher Education General Information Survey (HEGIS). The HEGIS full-time instructional faculty report is part of a series of reports institutions annually file with the National Center for Education Statistics of the U.S. Department of Health, Education, and Welfare. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions, and collection and return of completed reports for the National Center for Education Statistics (NCES).

The data were taken from the following HEGIS reports.

Academic Year 1980-81:	"Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1980-81" (NCES Form 2300-3).
Academic Year 1979-80:	"Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1979-80" (NCES Form 2300-3).
Academic Year 1978-79:	"Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1978-79" (NCES Form 2300-3).
Academic Year 1977-78:	"Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1977-78" (NCES Form 2300-3).
Academic Year 1976-77:	"Employees in Institutions of Higher Education, 1976-77" (OE Form 2300-3).
Academic Year 1975-76:	"Salaries, Tenure, and Fringe Benefits of Full-Time Instructional Faculty, 1975-76" (OE Form 2300-3).

The raw data reported herein were sent to each Nebraska institution of postsecondary education for verification. The data shown in this report reflects changes made by the institutions as a result of this verification process.

The Commission wishes to acknowledge with appreciation the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

Full-Time Instructional Faculty Data:

Nebraska Institutions of Postsecondary Education,

Academic Years 1975-76 Through 1980-81

III.	Commission Reports	25

I. Introduction

The following tables provide in summary form data regarding full-time instructional faculty. It should be noted that these data do not include all the faculty an institution may have that are providing instructional services as, for example, the data do not include information on part-time faculty. It is, therefore, inappropriate to draw conclusions from these data related to the number of Full-Time Equivalent (FTE) faculty.

Special note must be paid to the average salaries reported herein. These are nine (9) month average salaries which is the normal manner used for reporting average salaries of full-time instructional faculty. The formula used to derive these average salaries is the standard formula applied nation-wide. The formula is as follows: 9/11 x 12-month faculty Salary Outlay + 9-month faculty Salary Outlay = Total and Converted 9-month Salary Outlay. This Total and Converted 9-month Salary Outlay is then divided by the total number of faculty (in total or by the respective academic ranks) to determine the average salary. The salary data reported herein do not include the fringe benefits the faculty receive from their respective institutions.

While all institutions reporting these data follow the same instructions, there are differences in reporting that do cause some differences in the data that need to be mentioned. An example was provided in a comment from Wayne State College in 1979 when the 1975-76 through 1978-79 data were verified by the Director for Institutional Research at Wayne State College.

> *The average salaries for Full-Time Instructional Staff for 1975-76 through 1978-79 are correct, according to the formula used to convert 12-month salaries to 9-month salaries, however, a distortion of the values results with the inclusion of salaries for Division Heads at the Full Professor and Associate Professor levels. From 1975-76 through 1978-79, the Division Heads were 0.5 FTE in instruction. Wayne State College interpreted the HEGIS guidelines such that Division Heads fiscal-year salaries were included in the reports. (Compared to the average salaries for full-instructional staff on 9-month contracts, the institutional average has been distorted by about $600, the Full Professor average by $200, and the Associate Professor by $800).*
>
> *In order to eliminate the distortion of average salaries due to the inclusion of a rate-of-pay for an administrative function, Wayne State College will not include the Division Head salaries in the Fall 1979 data.*

Comparability of the average faculty salaries, by rank, contained in this report is limited also by the use of a single and general formula used for the purpose of computing the average faculty salary.

As the above statements indicate, these data do need to be reviewed carefully and generally. While these data are being presented for informational purposes, it would be a mistake to interpret these data too literally without investigating some of the factors behind the apparent differences among and between institutions and institutional sectors that limit the comparability of the information contained in this report.

These exclusions provide for differences in these data from what may be anticipated or thought to be intuitively by those who review the report. The exclusions are:

1. *Instructional Faculty who are employed to teach less than two semesters, three quarters, two trimesters, or two 4-month trimesters, or two 4-month sessions.*

2. *Instructional faculty for pre-clinical and clinical medicine. (Instructional faculty in all other health fields, such as dentistry, veterinary medicine, nursing, dental hygiene, etc. are included).*

3. *Instructional faculty who are employed on a part-time basis.*

4. *Administrative officers with titles such as Dean of Instruction, Academic Dean, Dean of Faculty, Dean of Students, Librarian, Registrar, Coach, etc., even though they may devote part of their time to classroom instruction.*

5. *Undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching associate, teaching fellow, etc.*

II. The Number and Average Salary of Full-Time Instructional Staff, By Rank, of Nebraska Institutions of Postsecondary Education for Academic Year 1975-76 Through 1980-81

The following six (6) Tables show the number and average 9-month salaries of full-time instructional staff, by rank, for the Academic Years 1980-81, 1979-80, 1978-79, 1977-78, 1976-77, and 1975-76. Each Table is formatted the same with the academic ranks described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the top of the Tables (columns).

The following abbreviations are used on the Tables for Purposes of designating the institutions.

University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community Colleges

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid Plains Technical Community College Area
N.E.	Northeast Technical Community College Area
S.E.	Southeast Technical Community College Area
West.	Western Technical Community College Area

Nebraska Independent Colleges and Universities

Belvu	Bellevue College
CSM	College of St. Mary
CNDIA	Concordia Teachers College
Creig. Univ.	Creighton University
Dana	Dana College
Doane	Doane College
G.C.B.	Grace College of the Bible
Hsting	Hastings College
Mid Lu	Midland Lutheran College
N.C.	Nebraska Christian College
N.W.U.	Nebraska Wesleyan University
P.V.B.	Platte Valley Bible College
Union	Union College
York	York College

FALL HEADCOUNT ENROLLMENTS IN NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION 1977 THROUGH 1981

NEBRASKA COORDINATING COMMISSION FOR POSTSECONDARY EDUCATION

JULY, 1982

Fall Headcount Enrollments in Nebraska Institutions of Postsecondary Education 1977 through 1981

A Five Year Summary

Total fall headcount enrollments in Nebraska institutions of postsecondary education grew by approximately 14% over the five year period, increasing from 81,733 in 1977 to 93,513 in 1981. The greatest increase was in the Nebraska Technical Community Colleges with 6,301 (36%), followed by the Nebraska Independent Colleges and Universities 2,128 (15%), the Nebraska State Colleges 751 (7%), and the University of Nebraska 2,600 (7%).

The five year period saw a shift in the ratio of full-time to part-time students. Where the part-time student accounted for 33% of the total in 1977, that amount had increased to 39% in 1981. The greatest change in the mix of full-time versus part-time enrollments is also to be found in the Nebraska Technical Community Colleges.

The ratio of men and women students also changed during the period. In 1977, men accounted for 54% of the total headcount enrollment. In 1981, the mix was evenly divided. Again, the greatest shifts are within the Nebraska Technical Community College sector with women accounting for 41% of the total enrollment in 1977, followed by 47%, 51%, 50%, and 52% for subsequent years.

The number of undergraduate students in the fall of 1981 was 81,966 as compared to 71,045 in 1977, an increase of 15%. Graduate students increased by 695 (9%), while first professional students increased by 214 (8%). There was a slight shift in the distribution of students at the state level with undergraduates representing 88% of the total enrollment in 1981 compared to 87% in 1977, an increase of 1%. Graduate students represented 9% of the enrollment in 1981 as compared to 10% in 1977, a decrease of 1%, while first professional students held steady at 3% for both years. This trend was reflected in the University of Nebraska and the Nebraska Independent Colleges and Universities. However, the Nebraska State Colleges reported 780 more graduate enrollments in 1981 than were reported in 1977, a relative gain of 70%.

Over the five year period men undergraduates increased 2,552 (7%), graduates increased 72 (2%) and first professionals were stable, with a total increase of men enrollment of 2,475 (6%). For the same period, women undergraduates increased 8,319 (25%), graduates increased 767 (20%), first professionals increased 219 (41%), with a total increase in women enrollments of 9,305 (25%).

PREFACE

The headcount enrollment data in this report were reported by the Nebraska institutions of postsecondary education as a part of the Higher Education General Information Survey (HEGIS). The HEGIS enrollment report is one of a series of reports which institutions file with the National Center for Education Statistics of the U.S. Department of Health, Education and Welfare each fall. The Nebraska Coordinating Commission for Postsecondary Education coordinates the distribution of the HEGIS reporting forms to the institutions and the collection and return of completed reports to the National Center for Education Statistics (NCES).

The data in this report (enrollments for Fall 1977 through Fall 1981) were taken from the following HEGIS reports.

Fall 1981: "Fall Enrollment in Institutions of Higher Education - 1981" (NCES Form 2300-2.3A, 4/81).

Fall 1980: "Fall Enrollment and Compliance Report of Institutions of Higher Education - 1980" (O.E. Form 2300-2.3a, b), summary sheet, columns 13 and 14.

Fall 1979: "Fall Enrollment in Institutions of Higher Education - 1979" (NCES Form 2300-2.3) summary sheet, columns 13 and 14.

Fall 1978: "Fall Enrollment and Compliance Report of Institutions of Higher Education - 1978" (O.E. Form 2300-2.3), summary sheet, columns 13 and 14.

Fall 1977: "Fall Enrollment in Institutions of Higher Education - 1977" (NCES Form 2300-2.3), columns 13 and 14.

The data analysis by the Commission was sent to each Nebraska institution of postsecondary education for verification. Therefore, the data reported herein reflect any changes made by the institutions as a result of the process of verification.

The Commission wishes to acknowledge, with great appreciation, the cooperation and time the institutions devoted to reviewing and verifying the data contained in this report.

This represents the first Commission report utilizing data charts generated by computer. The Commission wishes to acknowledge the services of Phil Hruska in the development of the computer program design.

DEFINITIONS

The following definitions are those prescribed by the United States Department of Education and used by the institutions in preparing the HEGIS data presented in this report. They should, therefore, be incorporated into any analysis or interpretation of the report.

UNDERGRADUATES. Students enrolled in a 4- or 5-year bachelor's degree program, in an associate degree program, or in a vocational or technical program that is normally terminal and results in formal recognition below the baccalaureate.

CLASS LEVEL. Whether first-year, second-year, etc., should be determined in a logical, consistent, and identifiable way. Usually, a student's class level would be based on the proportion of total requirements he has obtained toward the completion of the degree program in which he is enrolled, according to the number of years normally required to obtain them.

FIRST-TIME FRESHMEN. Entering freshmen who have not previously attended ANY college. Include students enrolled in the fall term who attended college for the first time in the previous summer. Also include students who entered with advanced standing (college credits earned before graduation from high school) at the freshman level.

OTHER FIRST-YEAR. First-year students who entered the institution before the previous summer.

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses for credit in regular classes with other students.

UNDERGRADUATE LEVEL. Includes but is not limited to under-graduates who cannot be classified by class standing; for example, new transfer students. Also included are students who already have bachelor's degrees or awards below the baccalaureate but are taking courses at the same level or lower. Included also are "special students" and teachers taking additional undergraduate courses for certification.

POSTBACCALAUREATE LEVEL. Includes but is not limited to "special" and other students taking first-professional or graduate courses but who are working toward a degree.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which requires at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the field of medicine, law, and theology specified in Part A of NCES Form 2300-2.1A, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school are reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are working toward a master's or doctor's degree.

FIRST-TIME GRADUATE STUDENTS: A student who is enrolled at the graduate level for the first time and who has not previously attended any other college as a graduate student. Included are graduate students enrolled in the fall term who attended graduate school for the first time in the previous summer.

ALL OTHER GRADUATE STUDENTS: All graduate students who are not first-time.

FULL-TIME STUDENTS. Those whose academic load (course work or other required activity) is at least 75% of your institution's normal full-time load.

FULL-TIME EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Part-time students are converted into full-time equivalents by one of the following;

(1) A method already employed in the institution to compute FTE's for some other purpose.

(2) Sum of the credit hours for part-time students divided by the normal full-time credit-hour load. NORMAL FULL-TIME CREDIT-HOUR LOAD is usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them. This is not to be confused with the minimum number of credit-hours required for a student to be classified full-time (75% of a normal full-time load). NOTE: Divide by the normal, or average, full-time load, not by a minimum full-time load. For most institutions, this will be 15 credit hours (not 12).

(3) Assigning a fractional value of full-time to each part-time student, appropriate to the institution, such as 1/4, 1/3, or 1/2. A student taking 3/4 (75%) or more of a normal full-time load is classified as a full-time student.

I. A FIVE-YEAR PROFILE OF FALL HEADCOUNT ENROLLMENTS IN NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION

Fall headcount enrollment reporting is only one of several types of enrollment that might be used in analyzing patterns at the institutional, sector, state or national level. Depending upon the question being asked, the following counts might be appropriate: fall headcount, unduplicated headcount over a fiscal year, full-time equivalency, etc. Each type of enrollment count tells the reviewer of the statistics something different.

Fall headcount enrollment is normally used as a parameter of trends among and between institutions. The Fall period is the time in which traditional collegiate institutions experience their peak enrollment period. Thus, by comparing one fall enrollment period with another, the reviewer can get a general understanding of whether the enrollments are increasing and the postsecondary educational enterprise is expanding, or whether enrollments are decreasing and the enterprise is contracting. Changes in student enrollment patterns also may be inferred from fall headcount statistics.

The following Figures and Tables reveal that the postsecondary educational enterprise in Nebraska continues to show a general expansion, and that the public and independent sectors are growing at relatively the same rate. An examination of actual numbers, however, indicate a shift in enrollment patterns. While the total headcount for the state of Nebraska has grown 14% (11,740) over the five year period, the full-time enrollments have shown a 5% increase (2,559) while the part-time enrollments have increased by 34% (9,221).

Within the public sector, the Technical Community Colleges accounted for the greatest percentage of growth; 36% as compared with 7% for both the State Colleges and the University of Nebraska. The greatest growth in part-time enrollments was also found to occur in the Technical Community Colleges.

Enrollments for women increased by 9,305 (6%) for the five year period, compared to an increase of 2,475 (6%) for men.

In summary, it appears that increasing numbers of persons are taking advantage of postsecondary education offerings in the state, but an increasing number are doing so on a part-time basis, a greater percentage of them are women, and an increasing number are opting for a two-year curriculum.

II. FALL HEADCOUNT ENROLLMENTS IN NEBRASKA INSTITUTIONS OF POSTSECONDARY EDUCATION, 1977 THROUGH 1981

The following five (5) Tables show the fall headcount enrollments in Nebraska institutions of post-secondary education during the fall of 1981, 1980, 1979, 1978, and 1977. Each Table is formatted the same with the student levels and classifications described on the left margin (rows) and the institutions (designations are abbreviated), and institutional sectors at the top of the Tables (columns).

The following abbreviations are used on the Tables for Purposes of designating the institutions.

University of Nebraska

UNL	University of Nebraska - Lincoln
UNO	University of Nebraska at Omaha
UNMC	University of Nebraska Medical Center

Nebraska State Colleges

CSC	Chadron State College
KSC	Kearney State College
PSC	Peru State College
WSC	Wayne State College

Nebraska Technical Community Colleges

Cent.	Central Technical Community College Area
Metro.	Metropolitan Technical Community College Area
M.P.	Mid Plains Technical Community College Area
N.E.	Northeast Technical Community College Area
S.E.	Southeast Technical Community College Area
West.	Western Technical Community College Area

Nebraska Independent Colleges and Universities

Belvu	Bellevue College
CSM	College of St. Mary
CNDIA	Concordia Teachers College
Creig. Univ.	Creighton University
Dana	Dana College
Doane	Doane College
G.C.B.	Grace College of the Bible
Hsting	Hastings College
Mid Lu	Midland Lutheran College
N.C.	Nebraska Christian College
N.W.U.	Nebraska Wesleyan University
P.V.B.	Platte Valley Bible College
Union	Union College
York	York College
